

Rising®

Museum Board

1-Ply / 15PT / 250gsm

2-Ply / 30PT / 500gsm

4-Ply / 60PT / 1000gsm

This line of 100% cotton fiber boards began its first production in 1970. Over the past 4+ decades, Rising has become synonymous with quality, archival framing. The range is endorsed by the Library of Congress, Library Service Institutions and Conservation Laboratories, certified by the Fine Art Trade Guild and has become the cotton board of choice by the most prestigious museums, galleries & framers worldwide.

Now stocked in 5 sizes (including the giant 60"x104"), 13 shades (including black) and 3 thicknesses (plys).

Conservation Board

Rising Conservation Board combines the permanence of our Rising Museum Board with the affordability of a wood pulp board. These acid and lignin-free boards are suitable for both fine art and photographic pieces. Rising Conservation Board is relatively inexpensive and designed for extended longevity.

Rising Photomount Board is manufactured with the same care as the Rising Museum Boards except without the calcium carbonate. This non-buffered board is recommended for photographic and other uses where the usual alkaline environment of buffered mounting is considered undesirable. Since the board is not buffered a slight drop in pH value is expected when exposed to normal atmospheric conditions.
